

The Beauty of
Health & Happiness

Our goal is to provide exceptional care to help children grow strong and healthy. We focus on prevention, early detection, and education to give children the best tools for a long, healthy life.

CARE FOR ALL

Managing your health can be a daunting task, especially if you don't have medical insurance. Even with insurance, health care can still be quite expensive. Our providers are well versed and experienced in providing high-quality care at an affordable cost to you so that you can spend more time being well than worrying about being sick.

CHILDREN'S SERVICES

We are a patient-centered practice, and all our providers are Board Certified, providing you with the most up-to-date and evidence-based care.

Our excellent staff will care for your child and help to make sure that all of their needs are met as they grow into young adults. With high-tech facilities and the latest available treatment techniques, our doctors are equipped with the right tools to keep your child healthy.

The services listed are only part of the large selection of services we offer. Please ask about any services you do not see listed here!

YOUR MEDICAL HOME

Your family has unique needs, and you deserve a team of doctors and medical providers who know those needs and can care for you the right way. At **North Central Family Medicine** we work to establish a comfortable medical home for you and your children.

We believe that it is best for a child to be seen regularly by doctors familiar with their individual needs and health history.

Our doctors try to provide the best possible developmental assistance to every child we care for, in a way that makes it easy for parents and caregivers to be involved and aware of a child's specific needs.

Responsibility As Our Patient

- Provide complete medical history and information about care obtained outside practice.
- Take medicines as prescribed, keep all scheduled appointments, ask any questions and tell us when you do not understand something.

- If possible, contact us before going to the emergency room so someone who knows you can care for you.
- Follow the plan of care that we have agreed is best for your health.
- Give us feedback to help us improve our care.
